[Can Rekordbox Use Djay Pro](#)

The screenshot displays the Rekordbox software interface. At the top, there are tabs for PERFORMANCE, FX, CFX, SAMPLER, MIXER, and REC. The main area shows two tracks being mixed: 'Magic Carpet Ride' by Mighty Dub Katz (00:58.6) and 'Know How' by Young MC (01:25.7). Each track has a waveform display and a BPM meter. The 'Magic Carpet Ride' track is at 128.7 BPM, and the 'Know How' track is at 116.9 BPM. Below the tracks, there is a 'Tag List' section with a table of tracks.

Artwork	Track Title	Public	Artist	Genre	Time	BPM	Rating	Year	K	Date Added

Here's how to use it with Spotify & djay Alongside Traktor and Serato, that makes djay Pro 1.4.3 the latest third-party option for Pioneer Nexus owners who don't want to use Pioneer DJ's own Rekordbox software.. If you don't have a rekordbox account, click Register for a rekordbox account in the pop-up window.. Click Try rekordbox dj for 30 days in the pop-up window to start the trial If you don't want to start the trial straight away, you can do it any time by selecting Trial at the top left corner of rekordbox.

Just as importantly, it means that fans of djay Pro can now use it in pro DJ booths without extra worry or hassle.

May 15, 2019 Pioneer DJ's new DDJ-200 controller is designed to work with mobile devices and streaming services.. You can plug your Mac running djay pro into a Pioneer Nexus 2 system (or the ridiculously overblown TOUR1 system) with a single USB cable, and take complete control of the software – including DJing from your Spotify account, thanks to djay Pro's built-in Spotify access.
